DR. D. ROY PARSONS OF DES MOINES, IOWA

The Unidentified Flying Objects Study Club of Kansas City is privileged to announce that Dr. D. Roy Parsons, minister and pastor of Fellowship Tabernacle of Des Moines, Iowa, will speak on the subject of Flying Saucers, their meaning and why they are here.

The meeting will be Sunday, February 14, at 2:30 p.m., at Drexel Hall, Linwood and Baltimore, in Kansas City, Missouri.

Dr. Parsons was born and raised in St. Johns, Newfoundland, where he was ordained a Methodist minister. When he moved to the United States he became a Baptist minister and served the First Baptist Church in east New York for a period of time.

Later he became an independent minister and evangelist, not affiliated with any church.

Dr. Parsons is now pastor of Fellowship Tabernacle--World Church, incorporated with the state of Iowa, where he has served the past five years. The name of this organization has now been changed to Universal Fellowship Order.

Dr. Parsons says that in his contacts with the "Space Brothers" he has been informed of many things of a universal nature which pertain to a way of life far beyond our own. He has been given information on the following subjects: 1. Cultural, 2. Political, 3. Religious, 4. Scientific, 5. Philosophical, 6. Psychological, and 7. Financial.

Dr. Parsons claims to have had contacts with the Space People since October, 1957, and is still having them.

Come and hear a fine lecture by a very dynamic speaker. The club is asking a donation of \$1.50 for adults and 50¢ for juniors.

DISCOVER YOUR TRUE WORTH---by Albert Schweitzer

It's not enough merely to exist. It's not enough to say, "I'm earning enough to live and to support my family. I do my work well. I'm a good father. I'm a good husband. I'm a good churchgoer."

That's all very well. BUT YOU MUST DO SOMETHING MORE. Seek always to do some good, somewhere. Every man has to seek in his own way to make his own self more noble and to realize his own true worth.

You must give some time to your fellow man. Even if it's a little thing, do something for those who have need of a man's help, something for which you get no pay but the privilege of doing it. For remember, you don't live in a world all your own. YOUR BROTHERS ARE HERE TOO.--From "This Week Magazine" Nov. 29, 1959.  
-----

We wish to acknowledge belatedly a letter from Mrs. Helen M. Boyd, 722 S. 5th St. Rich Hill, Mo., reporting a sighting last July. Mrs. Boyd says:

"I just want to tell you I've at last been favored with a UFO sighting during daylight hours. It was about noon, July 1. I'd been down to the farm for some vegetables and was returning home when the reflection of the sun on this object caught my attention. About the turn of a car wheel distant, then the brilliance of the light was gone, leaving an extremely clear--not transparent--silver colored object not very high in the sky. Almost immediately it turned so I could better see its shape, which was disc, or saucerlike. I was approaching a bridge, yet I watched it 5 or 10 seconds, until I had crossed the bridge. When I stopped the car for a better study, nothing remained in the azure sky but a tiny puff of white cloud not even re-

(Cont. next page)

remotely near where I had seen the object. There was no sound. I was going north and this object was northeast of me. It really gave me a breathtaking experience!"

Thank you very much, Mrs. Boyd.

-----

We hope you noticed the article by Dr. Wernher von Braun on Immortality in the Sunday, January 24, THIS WEEK. In it he says--

"Science has found that nothing can disappear without a trace. Nature does not know extinction. All it knows is transformation.

"Now if God applies this fundamental principle to the most minute and insignificant parts of His universe, doesn't it make sense to assume that He applies it also to the masterpiece of His creation--the human soul? I think it does. And everything Science has taught me, and continues to teach me, strengthens my belief in the continuity of our spiritual existence after death. Nothing disappears without a trace."

Isn't that wonderful, coming from a 'factual' scientist?

-----

From the WEEKLY READER (used in the public schools) Jan. 18-22, news report we gleaned this:

"Scientists have had two five-minute 'conversations' with the planet Venus. The messages were hard to hear and even harder to understand. No wonder! Venus is about 28 million miles away!

"Scientists worked long and hard before they could be sure they had really 'talked' with another planet. It was the first time this had been done."

-----

This was sent us by Larry Lindvig from Chicago:

Excerpts from the Radio-TV columns in the DAILY NEWS report that Long John, WOR radio in New York, was in a heated discussion with James Mosely, Gray Barker and Ben Isquith about saucers when they were cut off the air and music played for the last hour of the program. That was August 29, 1959, "Around the Dials".

From "What's On?" December 31, 1959:

On another program Comedian Jackie Gleason was discussing saucers with Long John. Gleason thinks they come from other planets; he believes in extra-sensory perception; he is sold on ghosts and teleportation; and he's a true believer in religion. Gleason gave the listeners a truly fascinating glimpse of the character and mental makeup of one of the most unusual personalities before the public today."

Thank you Larry Lindvig.

Excerpt from a column in "Midnight", NIGHT AND DAY IN MONTREAL CANADA, November 9, 1959, by Terry Taylor:

"Two American A.T. Intelligence men were in town last week from Washington, to see what they could do to hush up Flying Saucer revelations from the lips of Ronald Anstee."

This excerpt was sent to us by C. Alexander Odell, FILS., VSM. of "The World Institute of Inter-Galactic Cosmic Science" Canadian Chapter. Office address: P.O.B. 82, Port Elgin, N.B., Canada.

He says: "It has come to our attention that one of our worthy members, who is Director of Public Relations & Information, has been singled out as an object--apparently--by members of the Intelligence Department of the U.S. Air Force. It is respectfully pointed out that the U.S.A.F. has no jurisdiction over citizens of Canada, which is a member of the British Commonwealth of Nations and which contrary to some beliefs, is an independent sovereign state within that "family" of nations.

Moreover, there is NO censorship of news in Canada respecting the so-called UFO reports, nor over information respecting same. There is still a modicum of freedom in the Canadian press! Whether peoples in foreign governments like it or not, Canadians resent the interference by American, or, Britons, for example. Lip service to a particular cause or political doctrine is not a habit of Canadians, but, silent convictions appertaining to such causes or political leanings borne out in daily lives is the usual evidence of such convictions.

Recently two of your USAF Intelligence Officers have been reported by a local Montreal newspaper (see article by Terry Taylor) as having been in that city with a

view to interfering with the right of free speech under British Justice in Canada. It is high time that our "friends" in your nation's government mind their own business and cease to interfere in the internal affairs of any particular nation--particularly that one nation on earth where Americans are more graciously received than in any other! We are drawing your attention to this one of several reports--which we take, prima facia, as being accurately reported from the context of the report. We are directing this letter and enclosure to you as one of the most serious and sincere groups in the U.S.A., through our able secretary (Mrs. Ethel Ash) who is also a member of your club, in the hope that you will adequately "air" this complaint over the network which we understand you are able to use for discussions on just such topics as these. The writer adds that owing to the numerous incidences similar, or, analogous to that herein mentioned, we have receded from considering forming a group in your country. There appears to be sufficient "groups" in the U.S.A., and we do not wish to add to the confusion existing there already."

-----

A most unusual article from the SPACECRAFTER, Phoenix, Arizona, of October, 1959, has come to our attention. It is called FEAR and was written by Betty Eilers. She says:

"When future ages view our present age, can there be little doubt they will say, 'Why these people paid homage to a huge and monstrous god named FEAR!'

"It is said that each generation is wiser than the one preceding it. Should we doubt that not only future beings on this planet, but that visitors from other planets, will read the horrible truth about our CULT of FEAR?

"Many of us were brought up by well-meaning parents to FEAR the Deity--in the same breath we were taught to LOVE our neighbors and parents. The third requirement was to LOVE God. How can love and fear co-exist?

"Do you ever think of the place of animals in this great Plan? Sirius, the Dog Star, watches over all from his serene home in Space.

"Some of us FEAR death. Can we be so enamoured of the paltry offerings of earth that nothing better awaits us?

"We fear old age; loss of employment; going to Hell at the time of death--but no one has shown the location of such a place! We fear 'what people will say'. There are sins of omission as well as commission.

"For fear of disease man will stoop to any method to relieve his pains--which he made mostly for himself.

"FEAR has driven nations to war; it is now costing billions of dollars in lives and money to project satellites and other objects into space. Yet we give no thought to what it will do to the universe!

"Fear inspired Columbus to seek a shorter way to the East so the stomachs of Europeans could be happy with spices.

"We hear of no ethical question on whether the natives on the moon(if any) would appreciate the earth's claiming it.

"Hallowe'en is our yearly Festival to honor FEAR. We camouflage in various costumes to evade the eyes of fear. Parents often join children in going from door to door to appeal for food they do not even need. We have the owl and the witch to sweep away superstition and cruelty."

-----

From LITTLE LISTENING POST, Vol. 6, No. 1--

"A truism says that GREAT THINGS ARE SIMPLE. The AP says that 'government science leaders are warning that public disinterest and lack of money for research are endangering the U.S. Great scientist Oberth is declaring against rockets for space and in favor of some electrically propelled ships. Man is grappling with the greatest challenge of all time--trying to get off the planet. What is it, is not as complicated as it appears at Cape Canaveral."

-----

There is talk of a United Nations University at either New York or Geneva where 10 or 15 thousand students from all over the world can pool their ideologies at Campus level and build contacts that would immeasurably lessen world tensions.

From SPACECRAFTER, Vol. 3, No. 1

Los Angeles, Nov. 8--"A UCLA geophysicist has discovered a new land which lies thousands of feet beneath the ocean.

"Dr. John C. Harrison states that the land starts beneath the Gulf of California and goes down many thousands of feet, consisting mostly of valleys and ridges submerged beneath smooth layers of sand and mud, both of which have deposited thickly enough to smother the original features.

"Rock formations were mapped out by Dr. Harrison and Dr. Michael Caputo--Italy's University of Trieste--on the new land during their 2 months experience aboard the Horizon, Scripps Institute of Oceanography's 505-ton research vessel.

"The geophysicists have measured height and composition of ridges with a gravity meter, which indicates the pull of gravity on invisible rock formations.

"Accumulated data will take about a year to evaluate.

"The operation is taking place across the gulf between Baja, California, and the Mexican mainland.

-----  
From LITTLE LISTENING POST, Vol. 6, No. 3:

"Solar aircraft has developed a fire-fighting missile which can reach the disaster scene 5 miles away in 1 minute, hover, spray a ton of extinguishing material."

-----  
ROMAN SCRAPBOOK--

Mr. Railsbach, of Moline, Ill., came across this sentence in one of Obsequiens writings on ancient prophecies--"At sunset a circular object like a shield was seen to sweep across the sky from west to east." This was reported in 100 B.C. near Tarquinia, north of Rome.

-----  
The lecture given by Dr. Wallace C. Halsey, Jan. 10, was very well attended. It was very well received, both spiritually and physically. We shall welcome Dr. Halsey and his lovely wife Tarna back here at any time in the future that they can come.

-----  
Our tape librarian can furnish tapes for you. Many people are playing these tapes to groups in their homes, helping to spread the good work. Call or see Ken Priest, 3001 Norton, Independence, Mo., CL 4-5178.

See our book librarian Neal Pinkerton at the club lectures for your reading material. His address is 408 Greenway Terr., Kansas City, Mo., JA 3 2579.
